

GOOD BYE FB FRIENDS from rhoda foust 12/2016

Dear brothers and sisters inCHRIST JESUS, I have been posting FB friends for a long time but the truth is I am no longer able to do much more typing. My trembling hands and fingers are refusing to listen to my brain. I hope it will change but so far the Parkinson's condition is getting worse. This may be my last time to post anything except the new, already there. I have held this letter back for several weeks, already. The bible studies I have written in times past on "www.foust.info" will remain free reading for several years. I will still be watching and reading your posts, rejoicing each time I see the numbers of visitors accumulating on the web site. As long as possible I will still occasionally copy and paste studies I have already written. I will still be with you through the many Bible studies God has inspired me to share with so many, on the web site "www.foust.info". God has been so wonderful to me for many years, for which I am so very, very grateful and blessed. I am still very much alive, just so very weak and tired. I have met and loved, and been loved, by so many people in my life time. Thank you all for being my friends. Thank you all for your prayers and support, it means a lot to me. God be with you. If it be God's will I will be around for a long time yet. However, at present I am slipping away very noticeably, day by day. I can still type, but I have to edit a lot.

I have been doing everything possible, diet, exercise, medicine, seen several different doctors, etc. I was visited by our insurance doctor who spent about two hours asking questions, trying to find some type of health problem other than damaged shoulders. He said I was the healthiest and most positive person he had ever examined who has Parkinson's. He also discussed me being a perfect candidate for some Parkinson's medical studies being done, but I am afraid of those kind of experiments.

I have every intention to continue writing as long as I can. I had thought to write a book on what it is like to be a victim of Parkinson's. I hope I have not waited too long, hoping to improve. I am unable to feed, dress, bathe, drive, or other things I used to do alone so easily..

My memory is also getting worse, along with my eyesight. I hope you will keep my husband in your prayers. He is taking good care of me, but he is overloaded, trying to keep up with his normal outside responsibilities and my added care.

I trust our efforts in sharing the many Bible studies we have on "www.foust.info" will not be unfruitful. I am so blessed to have received so many encouraging, loving comments and appreciation for those Bible studies. I could actually feel so much love coming from many of you to us. I hope to see you all in God's kingdom when I will no longer have Parkinson's. In the meantime keep the faith "that all good things come from the Father". We will understand it all by and by. To love God is to love one another. We are keeping our email address "rrf1977@peoplepc.com" as well as the web site "www.foust.info" and "FB."

GOOD BYE FOR NOW ---- By Rhoda Foust. Written Oct. 2016
