

Information How I Started Bible Studies

I thank God for you and all FB friends, bros and sisters in Christ. Even when I am unable to post we have the web site "foust.info" prepaid for several years. I am so blessed to be loved by so many people.

We have been commandment keepers for many years. During this time I studied the bible intensively, not knowing why I felt compelled to write (long-hand) as God revealed to me things I had wondered about for years,(such as, "what time period will the last eight chapters of Ezek. fit into, or what happens to "the rest of the dead" after the thousand years, (of Rev 20)," are there many resurrections, when will the fullness of the Gentiles be fulfilled, when is the end of time, what happens after we die, how can we know what God requires of us, what is a sinner, etc?") resulting in a great deal of studies, that didn't always agree with what I had been taught by different religions. I often wondered why I was writing and saving so many studies, what am I suppose to do with them? After we got a computer I typed them all in it for a few years, still wondering why. Then years later I found the answer, I was to put them on a web page "foust.info" and offer them to the world. All we get is the joy of sharing these studies. We never ask for donations. We have nothing to sell. Topics are made easy to understand with scriptures for reference, and no one knows who you are if you don't reveal yourself. I don't know how long I be able to post because of Parkinson's disease, which is making it very hard to type accurately. I spend a lot of time correcting mistakes I have just recently put an article on FB "LIVING WITH PARKINSON'S".. I am thrilled that God is still allowing me to reach around the world with Bible studies for those whom He is calling out of this evil world! To read more about this go to "www.foust.info". See more personal events. Thank you for allowing us to share with you. I may post you some of my studies from time to time, unless you inform me that you are not interested. You may share this, or copy and paste any studies. God bless you in your search for eternal life. Never stop looking to God for the answers.
